

Digital ads overview

Key users

1. Merchants (business owners who run restaurants, hotels, showrooms or any physical outlets in airports, bus and Railways stations etc)
2. Advertisers (business owners who want to advertise their products and services at these outlets)

Merchant Process

Merchant register in our portal and send the request using “Host Ad form” and register their outlet and the type of devices, the number of devices they want to host in their outlet.

Digital ads company (our company) install the advertising units (Ads display devices) in these outlets upon request by the merchants.

Advertiser Process

The advertisers who are willing to advertise will then register in our portal and post the Ad videos using “Post Ad form” and select the location based on state, city and area and choose the outlet, available device type, duration and upload their video ad and pay the fee.

Once the advertiser registers, the video ads are then played on the particular devices in that particular outlet for that particular duration.
