Chat house	Pav bhaji nd chats	10	Sinhghad road, Pune	Pune	Maharashtra	435453	Subhash	6443545	Email	Wall mounted	4

The advertiser Process (basically all the data in this process is populated from the DB which the merchants already submitted. The advertiser only selects his preferred outlet and uploads the video and make the payment)

Submit the ads using "Post Ad Form".

1. The advertiser select the State field (drop down list populated from the state field (col 6) from the table) - For Eg. the user selects Maharashtra (screen 1)
2. Another dropdown list by name City (Values to be populated from col 5 from the table) - The cities that are in the table will be populated (since the user selected Maharashtra, the cities that exist in DB will show in dropdown list - here Mumbai and Pune will be displayed) (screen 2)
3. The use now selects the particular city (for Eg. Mumbai)
4. Now all the restaurants that are posted in Mumbai will be displayed
5. The user can select a particular restaurant from the list and the details are displayed (screen 4)
6. The user uploads his ad video
7. Click the Payment button to make the payment.
